Agenda 2. Issue in the Vallam Vadagal industrial park – Disturbance of vehicle movement

From 26th-Sep morning, Yamaha employees have assembled in Yamaha Vendor Park and now they become a big mass to disturb for vehicle movement on the road. We expect there may be safety issues and adverse movements to women employees and foreign expats, they may affect our vehicle movement and man movement.

Hereby we deliberately need your support to evict those people from our area and protect our business. So that we can run our factory in a smooth manner. Otherwise it will be a big problem to our day to day activities. Hereby we request your good self to extent your support and rescue normal situation in our factory area.
